
Two DIY Mouse Trap Alarms for SHTF

<https://www.youtube.com/watch?v=EecNwa34Ub4>

Notes by Jessica Wills:

I have so much to say about this video!

First off -- it has a bunch of cool functions.

Second it can do what ever you need it to do.

Third when you are finished with it you can see what else has been suggested

Fourth when you have something interesting to say

And the list goes on and on and on.
